

Imperia_{UK}
Fine Moldovan Wines

Moldova produces some of the worlds finest wines.

However, economic and political issues in Moldova have meant that countries such as the UK have never had the pleasure of experiencing these exquisite wines...

...until now.

Imperia UK specialise in researching and selecting the very best Moldovan wine to distribute into the UK. Many wines on our list are exclusive and only available to order through Imperia UK.

Contact us to request a wine list or to come to one of our wine tasting events all over the UK.

The wines we distribute range from daily drinking wine to very special wines from winemakers such as Milesti Mici, Lion-Gri and Leovin. These wineries are set in some of the most fascinating winemaking regions in the world.

The suitability of the climate and soil along with the technology used to produce the wine has resulted in Moldova being a prime source of excellent wines.

Imperia UK aim to distribute into Specialist Wine Outlets, Hotels, Restaurants and larger selective stores. Please contact us to arrange a visit from one of our representatives.

A group of people are silhouetted against a bright, warm sunset. They are holding wine glasses up in a toast. The scene is captured in a low-key, high-contrast style, with the subjects appearing as dark shapes against the glowing orange and yellow light of the setting sun. The people are smiling and appear to be in a social setting, possibly a restaurant or a wine tasting event. The focus is on the collective action of raising the glasses.
